

**Projects for Assistance in Transition from Homelessness (PATH)
2010/2011 Funding Activities**

Eligible PATH activities

Agencies use PATH dollars to support a wide array of eligible services. People who are homeless and have serious mental illness can be very difficult to engage. Many among this population also have substance use/abuse problems. PATH funds are specifically targeted to help bring these individuals into the services they need. Grantees may use PATH funds to provide any or all of a number of essential services including outreach, screening and diagnosis, community mental health, case management, alcohol and drug treatment, habilitation and rehabilitation, supportive and supervisory services in residential settings, and referral to other services such as health care. A limited amount of funding may also be used for housing assistance - minor renovation, repairs, or one time rent payment to prevent eviction.

Agency	Amount Awarded
